EXPERIENCE

Quantitative Developer Intern

Mar 2026 – Present

WIN Capital Funds

International (Remote)

- Building end-to-end data infrastructure and automated pipelines for ingesting and processing multi-market equity data (NYSE, Crypto)
- Researching and backtesting systematic trading strategies using technical indicators; documenting performance metrics and drawdown analysis; translating quantitative hypotheses into testable models

Algorithmic Trading Intern

Jan 2026 – Present

AimFi Capital

Hyderabad, India (Remote)

- Built a real-time screening engine processing 2200+ NSE & BSE equities for 8+ technical pattern types using Python
- Delivered ranked watchlists of equities to support discretionary trading decisions, including breakouts, trendline analysis, bullish & bearish divergence signals

EDUCATION

St. Vincent Pallotti College of Engineering & Technology, Nagpur

CGPA: 9.75

Bachelor of Technology in Computer Science and Business Systems, minor in AI

2023 – 2027

PROJECTS

QuantLabs | React, Node.js, Python

2026

- Engineered an algorithmic trading sandbox featuring an NLP-to-Code bridge that translates natural language into executable Python backtesting scripts.
- Built an execution engine processing historical OHLCV data to calculate institutional risk metrics including Sharpe Ratio and Max Drawdown.
- Implemented an automated portfolio rebalancer enforcing strict risk management and proactive options hedging against market volatility (using market sentiments).

Ekonos | Rust, Solana, Anchor

2025 /link

- Developed a fractional asset ownership protocol on Solana as a Turbin3 Capstone project.
- Implemented secure vaults and token distribution logic to handle user investments seamlessly.

Quill.ai | JavaScript, Chrome Extension, AI

2025 /link

- Developed a Chrome extension that reads web forms and auto-fills them with AI-generated content.
- Used DOM manipulation to detect input fields and inject responses in real-time.

TECHNICAL SKILLS

Languages: Rust, Python, C++, SQL, JavaScript, TypeScript

Frameworks: Anchor, React, Node.js, MERN

Developer Tools: Git, VS Code, Surfpool, Postman

Libraries: pandas, NumPy, Matplotlib

CERTIFICATIONS

Solana Builder Graduate | turbin3.org

2025

School of Solana Graduate | ackee.xyz

2025

Disaster Risk Monitoring Using Satellite Imagery | NVIDIA

2024

Python and SQL for Data Science | Scaler

2024

COPYRIGHTS

QuantLabs: NLP Based Backtesting Engine and Portfolio Rebalancer | SW-11555/2026-CO

2026

Automated Job Application Using a Smart Browser Extension | LD-46176/2025-CO

2025

AWARDS AND ACHIEVEMENTS

Blockchain Nexus, IIT Kanpur <i>First Position</i>	2025
Stellar Ragnarok, Nagpur <i>Second Position</i>	2025
Raisoni Tech Hackathon, Nagpur <i>First Position</i>	2024
Outstanding Tech Performer, SVP CET <i>Award Receiver</i>	2024
SIH Expo, SVP CET <i>Third Position</i>	2024
Dataverse, SVP CET <i>First Position</i>	2024

CONTRIBUTIONS & COMMUNITY INVOLVEMENT

Get On-Chain Workshop <i>Speaker and Instructor</i>	2025
• Conducted a hands-on workshop titled "Get On-Chain" for 70+ participants. • Introduced blockchain fundamentals and guided attendees to deploy their first dApp using Noah.ai.	
Superteam India & Solana Foundation <i>Conference Attendee</i>	2025
• Participated in the <i>OnlyDevs Conference</i> by Superteam India and <i>Solana Apex</i> by Solana Foundation. • Engaged with the Solana developer ecosystem and explored upcoming trends in decentralized applications.	
HacKronyX <i>Coordinator and Organizer</i>	2025
• Led a national-level hackathon with 3500+ registrations. • Managed logistics, sponsorships, volunteers, and end-to-end event execution.	
HackGenX <i>Technical Mentor and Judge</i>	2025
• Guided participants and evaluated projects on innovation, design, and technical depth.	
Vigyan Va Ganit Sanskar Shibir (ViBha) <i>Guest Speaker on AI</i>	2025
• Delivered a talk on AI applications, emerging trends, and societal impact in Daryapur.	
Google Devfest Nagpur <i>Volunteer</i>	2025
• Contributed in the management and operations of Devfest 2025
